

Contract name: **National Heritage Institute Prague**
Location: Prague
Realization: 2015–2017
Construction type: Cultural building

Description: On the corner of Liliová and Zlatá Streets, a large plot is occupied by a historic house with a rich past. In 2015-2017, a model conservation restoration of this historic house took place and after this extensive reconstruction the house serves as a workplace of the National Heritage Institute.
The aim of the restoration was the preservation and social appreciation of the historical and cultural monument, including its functional use. The building now houses, among other things, the central library of the National Heritage Institute, a research room and a lecture hall.

Technical description: The delivery of the emergency lighting system included 1 main station, a 20 Ah battery, 100 Awex luminaires and 50 external modules for the historic chandeliers.
